

FARAH KHOURY

FULL-STACK SOFTWARE ENGINEER

054-666-8043 | farah.khoury11@gmail.com | [LinkedIn](#) | [Portfolio](#) | Israel

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with **3+ years** delivering and supporting **10+ production business systems**. Strong in PHP, C#, JavaScript, Python integrations, SQL/MySQL, REST APIs, database design, and multilingual web development. Hands-on project experience building modern applications with React, Next.js, TypeScript, and Tailwind CSS.

TECHNICAL SKILLS

Core Development: PHP, C#, JavaScript, Python, SQL/MySQL

Backend & APIs: PHP OOP/MVC, REST APIs, webhooks, authentication, RBAC, third-party and device integrations

Frontend: HTML5, CSS3, Bootstrap, AJAX, jQuery, responsive RTL/LTR interfaces

Modern Web (Projects): TypeScript, React, Next.js, Tailwind CSS, Node.js/Express, MongoDB

Data & Desktop: MySQL, MariaDB, schema design, migrations, query optimization, C#/.NET WinForms

Tools & Delivery: Git, GitHub, Docker, GitHub Actions CI, Vercel, testing, deployment

Hosting & Cloud: Hostinger, Contabo VPS (Windows Server/Linux); Cloudflare, DigitalOcean (course projects)

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer / Technical Lead | CTC - Yarka, Israel | 2023 - Present

- Designed, developed, and maintained **10+ production business systems** covering POS, CRM, HR/attendance, inventory, warehouse, digital documents, and production workflows.
- Built secure PHP/MySQL backends with REST APIs, webhooks, authentication, role-based access control, reporting, and external integrations.
- Delivered responsive business interfaces in **Arabic, Hebrew, and English**, including multilingual RTL/LTR layouts using JavaScript, Bootstrap, and AJAX.
- Developed C#/.NET WinForms POS modules for payments, refunds, receipt printing, and reporting; **instrumented transaction paths and eliminated redundant database loading before printing** to improve responsiveness.
- Designed relational schemas, migrations, validation rules, data-repair scripts, and database queries supporting evolving customer environments.
- Integrated **8+ service and hardware categories** (payment terminals, attendance devices, GPS, printers, WhatsApp, APIs); used **Python scripts on a VPS** to collect device data for MySQL-backed dashboards.
- Mentored **7 student developers**, reviewed code and releases, supported **Hostinger** deployments, and connected business applications with **Contabo VPS** (Windows Server/Linux).

IT Specialist | Galil Software - Nazareth, Israel | 2022 - 2024

- Supported Windows/Linux, Azure, Active Directory, Microsoft 365, VPNs, networks, printers, and business workstations.
- Diagnosed software, database, connectivity, and device issues to improve reliability and production support.

EDUCATION & CERTIFICATIONS

B.Sc. in Computer Science - Ramat Gan Academic College | Evening Program, Starting Fall 2026

Practical Software Engineering Diploma - ORT Braude College

Quality Assurance (QA) Certification - Technion, Haifa

Languages: Arabic (Native), Hebrew (Native), English (Professional Proficiency)
